TO THE WEST! TO THE WEST!

Before making your arrangements to fol-
low the advice of the "thousands who have
already gone," it would be well to consider
what has been done to make the journey to
your "Homes in the West" as pleasant and
free from danger as human skill and fore-
sight can accomplish.

By consolidation and construction, a road
has been put into operation on the shortest
possible line from Nashville, Tenn., to St.
Louis, "the future great City of the world."

This line, the

ST. LOUIS & SOUTHEASTERN RAIL-

WAY,

has, during the past year, earned an en-
viable reputation by its smooth track, prompt
time, sure connections, and the magnifi-
cence of its passenger equipment. Its
trains are made up of new and commodious
day cars, provided with the celebrated Mil-
ler coupler and platform, and the Westing-
house air-brake.

It is positively the only line running
Pullman Palace Drawing-Room Sleeping
Cars through without change from Nash-
ville to St. Louis. No other line pretends
to offer such advantages, either in distance,
time, or equipment. Why, then, journey
by circuitous routes? Do not be induced
to purchase tickets to St. Louis or the
West by any other line, remember that

The "St. Louis & Southeastern" is
the shortest, swiftest, quickest, best and
only line under one management from
Nashville to St. Louis, and is from 60 to
200 miles the shortest to St. Louis, Kansas
City, Omaha, Denver, California, Texas,
and all western points. It is also the "Chi-
cago Shortest Line," via Evansville.

You can secure the cheapest rates for
yourself and your movables on applica-
tion, in person or by letter, to C. S. BAR-

RETT, Southern Passenger Agent, Postoff-
ice Box 242, Chattanooga Tenn., or to the
undersigned.

NEW SCHOONER.—The new three-masted schooner E. S. Poyell arrived yesterday. She is to be attached to Williams & Matthews' line from here to New York. The vessel was built at Tottenville, Staten Island, and is of the following dimensions: Depth of hold 16 feet, width 36 feet, length of keel 138 feet, tonnage 577, and draws 13 feet from load. She made her first trip from New York five days, and is really a beautiful craft, and is commanded by Capt. Williams, formerly of the schooner John, who is a thoroughbred seaman.

Two persons were fined \$5 each for allowing their cows to run at large.

RAPID TRANSIT.—Railroad communication with our sea coast is growing more rapidly, in favor of a large number of people who, heretofore have exhibited but little interest in such subjects, but are now flocking to the high rents and high taxes will compel many to seek homes on the sea coast, where the luxuries and commodities of life are abundant at their very doors. Parties residing in the interior or mountainous sections of this and adjoining States will find our Watering Places equally healthy and attractive, and decidedly more convenient and less expensive than the gay and fashionable resorts of the more northern localities; to insure which Wilmington must offer some inducements in the way of quick and certain transit.

The Railroad meeting called at the Court House this evening at 7 o'clock, will doubtless be largely attended. Its importance to our city cannot be overestimated, and we predict a large and enthusiastic gathering of our citizens, who are fully alive to their wants and interests.

A Cincinnati billiard player was lately arrested for pocketing the balls.

In the Rev. Edward E. Hale's church, Boston, there has been an auction sale of pews upon which the original holders failed to pay the rent.

Saturday Night Sketches.

It is so calm and peaceful to-night, that we feel almost discouraged in our endeavor to discern new items for our weekly sketch. The moon shines down clear and bright upon a busy, but comparatively quiet, crowd, and the balmy air and general beauty of the night entices many from their homes. Walking among the shadows of the majestic trees is a youthful couple, oblivious to the world about them, only intent upon their own little world. 'Tis the old, old story which has been told since the world began, and yet forever new. Ah! well, we were all young once, and we will leave them admiring the moon, especially brilliant to them, and turn to the common realities of life.

A slight disturbance on the corner of Market and Front, over almost before the immediate neighbors knew of the affair, and the air is quiet. But the people are not. In five minutes, the police have to go to work to clear a passage on the sidewalk to allow people to pass along. The crowd augments rapidly, and from every direction come men and boys to the crowd. "What's the matter?" is heard in different tones on all sides, while the police preserve order and answer questions. It is a trait of most people, we believe, to stay to see a personal difficulty, and at such times a crowd rapidly gathers, but to-night the bystanders are especially anxious, apparently, as they stand about the corners nearly an hour. But everything is peaceful and calm, and even the crowds disperse at last, so that, as the night wanes the streets are clear and business goes on with its accustomed monotony. Many a fine bunch of fish finds a purchaser, and the cart loads of cabbages and other winter vegetables are gradually unloaded and are seen no more. The air is so balmy, however, that one lates to go within doors, and the midnight hour finds many a wanderer upon the streets. But the tap of the policeman is heard, and the saloons close, and this is the signal for quiet. So no more drinks means, now go home, and are the toll of one o'clock the streets are deserted, and the week and the month are gone.

Good Health.

To the man of business this, as we well know, is one of the chief attributes to success. Without it we lack energy, and enterprise is a thing foreign to our thoughts; without it we mope about listless and inert, caring but little how the world wags, and unconscious of everything around us. The first question the business man asks himself, is, how can I secure my health? I will leave business for a short time, and then I will commence with renewed energy. For example, take an wharf merchant, who with overtaxed brain working not only late in his office but when seated by his fireside at home his thoughts are among the cotton bales or enveloped in turpentine. He retires to rest, but not to sleep. He is saluted on the street, with the stereotyped phrase, "how ill you are looking?" His friends urge him to travel, and he seeks some northern climate or renewed watering place, but still his thoughts are at home with his business. Again, he loses time, and time to him is money, so that the visit has been unfavorable. But it may be that he is one of those unfortunate individuals who belong to the "can't get away club." He cannot, or rather thinks he cannot go. He continues to toil, until weak nature gives away, and an untimely grave awaits him. This is no gilded picture; it bears facts upon its face—stubborn facts. For all such, I think you have a remedy at your own doors. All you need is a little energy. Start such a man at the wheel as my friend, who has lately moved to our community, and who is among our first merchants on the wharf, whom Wilmington looks upon as one of its most enterprising citizens. Start the ball in motion. Let the merry rattle of the horse car be heard upon our coast, awakening the echoes of the forest and enlivening the loneliness of our grand old woods. Let the railroad be started to the nearest point on the coast from Wilmington. It is but a few miles from your city, and the cost will be but trifling. You would find that after business hours you could ride down to the seacoast, snuff the breeze to your heart's content, and after a good night's lodging, and an early breakfast, be at your offices in full time for business, enabled to commence work with an energy that would surprise you.

We all admit the necessity of recreation. Look around you and contrast the health of those who take this recreation during our summer months, and those who remain at home. The difference is marked. Are you aware that recreation adds many days to your lives? It certainly does. All work and no play makes Jack a dull boy. In a word, give your laboring people a change of air. Have a road made to the sea coast, when at a small cost, they could breathe the fresh air of "Old Ocean." When a pleasant night's rest would so refresh them, that they would arise next morning to bless you for the comfort and rest money to build the road has done, but the cost is small in comparison to the benefits that must regularly accrue. The road can be built for \$5,000 less than it could three years ago. Labor is cheaper, iron is cheaper. Such a road would increase the travel on all of the railroads running into our city. Excursions would be the order of the day, and the mountaineer would view, with delight, the majestic ocean. It would secure to those in the interior of the State, a health giving resort. We think on this point the railroads would subscribe liberally, and we do not doubt but that if their worthy Presidents were approached, judiciously, and their interests clearly pointed out to them, they would give readily their endorsement. The book keeper and the care worn clerk, the tradesman and the mechanic, all come forward and add your mite. Take but one share. Our foreign population will no doubt add their mite. Let all have an action in it; let the meeting be an enthusiastic one, and let the road be built, and it will lead life to our city. Now is the time for action—do not delay until the summer months are upon us. AN OLD CITIZEN.

LATEST BY TELEGRAPH.

NEW YORK, February 2.

The Columbus in this city have received by mail particulars of the capture and execution of Col. Montaner, a Spanish commander. The Colonel was with 600 men conveying a train, which was attacked and captured. Montaner was also taken and his troops dispersed. He was marched to the headquarters of Gen. Gamez, who at once ordered him to prepare for death, and soon afterwards he was shot. Montaner was recognized as especially severe to Cuban prisoners. News has also been received of the shooting of Spanish soldiers captured near Puerto Principe.

Yesterday, at South Norwalk, Ct., the Old Well Hotel, a summer resort, Hopkins' livery establishment, including carriages and sixteen horses, and the News office, with most of its contents, were burned. Loss \$75,000. The fire, which is believed to have been incendiary, was first discovered in the livery stable, and one slave, who was seen prowling about the premises, has been arrested on suspicion.

At Bogota the Resident Minister of the United States, Mr. Scruggs, while in the presence of a religious procession which was passing, refused to take off his hat, and thus became exposed to some insulting treatment by some boys in the crowd, who regarded Scruggs' refusal as a deliberate insult to the religion of the people.

WASHINGTON, February 2.

In the Senate a resolution was introduced by Wright directing the Finance committee to investigate into the expediency of abolishing the internal revenue office and imposing the duties of that Bureau on the Treasury Department. Agreed to.

Advices from the city of Panama and the Isthmus to 29th January, report that things in general continued in a state of tranquillity.

The U. S. steamer Wyoming left Aspinwall on the 14th, taking with her the filibustering steamer General Sherman for trial in the U. S. Courts. The Columbian authorities did not want to let her go out of their waters, and think that she ought to have been tried in a Columbian Court, and still hold possession of the ship's papers found on board when she arrived. Capt. Cunningham has been thanked by the government of Guatemala for this ridding Central America of a standing menace to that country.

INDIANA, February 2.

The Typographical Union last September decided to raise the scale of prices from 12 to 25 per cent. over war rates, this was done in spite of a protest from the publishers, after the panic it was suspended. Last night they again voted an increase, which, being refused by the publishers, all the printers in the Journal, Sentinel and Indianapolis publishing company's offices struck to-day. The papers will issue to-morrow as usual, though in a reduced form. Strikers will go to their homes.

MASSACHUSETTS, February 2.

All the cotton on the partially burned steamer Glaucus was injured by water and fire.

KENTUCKY.

PROSPECTUS.
THE
EVENING POST.
J. C. MANN.
EDITOR & PROPRIETOR.

Published every evening, except Sun-
day, at 5 cents.

Five Dollars per Annum.

The Post is designed to reach all
classes of citizens, and its subscription
price is therefore placed so low as to be
within the reach of all. It contains the

LATEST NEWS,

up to the time of going to press.

TELEGRAPHIC
BY MAIL
COMMERCIAL
AND LOCAL.

It should be in the hands of every man
who desires to know what has
transpired during the day,
and, as it aims to give

RELIABLE INTELLIGENCE.

its publisher hopes it will prove a wel-
come guest in many families.

THE POST

is sprightly without being sensational,
and it carefully excludes all objectionable
incidents, and reports calculated to of-
fend the sensibilities of the most fastid-
ious. As an

Advertising Medium

it claims to be first class. It has a good
and constantly increasing cir-
culation, and is read by almost
every business man
in the city.

Politically the Post is
UNSWERVINGLY REPUBLICAN.

Its editor has been a consistent mem-
ber of that party since 1855, through
its vicissitudes and triumphs, he claims
to speak advisedly when advocating its
principles. He is not, however, an "extrem-
ist," and accords to others what he
claims for himself, the right of free
thought and of free speech.

THE ADVERTISING RATES OF
the Post, like its subscription price, are
at liberal and at living prices, as an ex-
amination of them will show, and it
despises a share of public patronage.

THE EVENING POST

is closely identified with the local wel-
fare of the Cape Fear region, and the
believers in progress, whether

EDUCATIONAL,
AGRICULTURAL,
MECHANICAL, or
COMMERCIAL.

will find an enthusiastically ally in THE
Post.

THE POST

is opposed to monopolies, but in favor
of internal improvements, and a firm
believer in the patronage and support
of home enterprises and institutions.

individuals. No expense will be spared in
the maintenance of its position as the for-
most of American journals. It is the best

served only by weekly mails. It contains,
in addition to editorial comments on cur-
rent topics, an excellent condensation of

Prospectus for 1874—Seventh year.

THE ALDINE

An Illustrated Monthly journal, univer-
sally admitted to be Handsomest Pe-
riodical in the World. A Re-
presentative and Champion
of American Taste.

Not for Sale in Book or Music Stores

THE ALDINE, while issued with all the
regularity, has none of the temporary or
timely interest characteristic of ordinary
periodicals. It is an elegant miscellany of
pure, light and graceful literature, and a
collection of pictures, the rarest specimens
of artistic skill, in black and white. Al-
though each succeeding number affords a
fresh pleasure to its friends, the real value
and beauty of THE ALDINE will be most
appreciated after it has been bound up at
the close of the year. While other publica-
tions may claim superior cheapness, as
compared with similar works, THE ALDINE
is a unique and original conception—alone
and unapproached—absolutely without
competition in price or character. The
possessor of a complete volume cannot
duplicate the quantity of fine paper and
engravings in any other shape or num-
ber of volumes for ten times its cost; and
then, there are the chromos, besides!

ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have
won a world-wide reputation, and in the
centres of Europe it is an admitted fact
that its wood cuts are examples of the high-
est perfection ever attained. The common
method of engraving on steel plates is rap-
idly yielding to a more educated and dis-
criminating taste which recognizes the ad-
vantages of superior artistic execution and
greater facility of production. The wood-
cuts of THE ALDINE possess all the deli-
cacy and elaborate finish of the most costly
steel plate, while they afford a better re-
presentation of the artist's original.

To fully realize the wonderful work which
THE ALDINE is doing for the art and litera-
ture in America, it is only necessary to
consider the cost to the people of any other
recent representations of the productions of
great painters.

In addition to designs by the members of
the National Academy, and the French
Academy, THE ALDINE will reproduce
examples of the best foreign masters,
selected with a view to the highest artistic
merit, and the greatest interest to the sub-
scribers to THE ALDINE will be a trifling
cost, to enjoy in his own home the
pleasure and refinement of the art.

The quarterly limited plates for 1874 will
be by Thos. Moran and J. D. Woodward.

The Chromos, issued in connection with
special designs appropriate to the season,
by our best artists, and will surpass in attrac-
tion any of its predecessors.

Every subscriber to THE ALDINE for
the year 1874 will receive a pair of chromos.
The original pictures were painted in oil for
the purpose of publication, and are by Thos.
Moran, whose great Colorado picture was
purchased by Congress for ten thousand dol-
lars. The subjects were chosen with a view to
"The East" and "The West." One is a view
in the White Mountains New Hampshire the
other is the Cliffs of Green River, Wyo-
ming Territory. The difference in the na-
ture of the scenes themselves in a pleasing
contrast, and affords a good display of the
artist's scope and command of color. The
chromos are each worked from thirty distinct
plates, and are in size (12 x 16) and appearance
exact facsimiles of the original paintings. The
presentation of a worthy example of America's
greatest landscape painter to the subscribers
of THE ALDINE is a happy idea, and its suc-
cessful realization is attested by the following
testimonial, over the signature of Mr. Moran himself.

"NEWARK, N. J., Sept. 20th, 1873.
Messrs. JAMES SUTTON & Co.,
Gentlemen,—I am delighted with the
proofs of the color of your chromos. They are
wonderfully successful representations of the
mechanical process of the original paintings.
Very respectfully,
(Signed) THOS. MORAN.

These chromos are in every sense American.
They are by an original American process,
with material of American manufacture,
from designs of American scenery by an
American painter, and presented to subscri-
bers to the first successful American Art
Journal. If no better because of all this they
will certainly possess an interest no foreign
production can inspire, and neither are they
to be despised by reason of their cost. The
illites of production they cost the publishers
only a trifle, while equal in every respect to
other chromos that are sold singly for don-
or the cost of the chromos. It is practical, sub-
stantial, and will bear the test of time. Per-
sons of taste will prize these pictures for
themselves—not for the price they did or
did not cost, and will appreciate the price
that renders their distribution possible.

If any subscribers should indicate a pre-
ference for a figure subject, the publisher
will send "Thoughts of Home," a new and
beautiful chromo, 14 x 20 inches, represent-
ing a little Italian village, the striking
eyes betray the longings of his heart.

TERMS.
\$5 per annum, in advance, with Oil
Chromos free.

For 50 Cents Extra, the chromos will
be sent, mounted, varnished, and prepaid.

THE ALDINE will, hereafter, be obtain-
able only by subscription. There will be no
reduced or club rate; cash for subscriptions
must be sent to the publishers, and not
handed to the local canvasser. Without re-
sponsibility to the publishers, except in cases
where the canvasser is guilty of fraud, the
facsimile signature of JAMES SUTTON & Co.

THE SUN.

WEEKLY, SEMI-WEEKLY, AND
DAILY.

THE WEEKLY SUN is too widely known
to require any extended recommendation,
and it is a fact which has already given it
fifty thousand subscribers, and which
will, we hope, give it many thousands more
are briefly as follows:
It is a first rate newspaper. All the news
of the day will be found in it, condensed
when unimportant, at full length when
important, and always presented in a clear,
intelligible, and interesting manner.
It is a first rate family paper, full of enter-
taining and instructive reading for every
kind, but containing nothing that can of-
fend the most delicate and scrupulous taste
and is a first rate story paper. The best tales
and romances of current literature are care-
fully selected and legibly printed in its pa-
ges.

It is a first rate agricultural paper. The
most fresh and instructive articles on agri-
cultural topics regularly appear in this de-
partment.

It is an independent political paper, be-
longing to no party and wearing no color.
It is a paper for principle, and for the election
of the best men to office. It especially de-
votes its energies to the exposure of the
great corruptions that now weaken and dis-
grace our country, and to the redress of the
many republican institutions altogether. It
has no fear of knaves, and asks no favors
from the supporters of the present adminis-
tration.

It reports the fashions for the ladies and
the markets for the men, especially the cat-
tle markets, to which it pays particular at-
tention.

Finally, it is the cheapest paper published.
One dollar a year will secure it for any sub-
scriber. It is not necessary to feel any in-
order to have THE WEEKLY SUN at its
rate. Any one who sends a single dollar
will get the paper for a year.

We have no traveling agents.

THE WEEKLY SUN—Eight pages, fifty
six columns. Only \$1.00 a year. No dis-
counts from this rule.

THE SEMI-WEEKLY SUN—Same size
as the Daily Sun. \$2.00 a year. A discount
of 20 per cent. to clubs of 10 or over.

THE DAILY SUN—A large four page
newspaper of twenty eight columns. Daily
circulation over 120,000. All the news for
cents. Subscription price 50 cents a month,
or \$6.00 a year. To clubs of 10 or over, a dis-
count of 20 per cent. Address
